- a/ Type of service offered: 1 - physicians'; 2 - surgeons'; 3 - hospital; 4 - drug; 5 - dental.
- b/ For units under various state headings to have reported physicians' and surgeons' charges. These units total 441 including 534 counties in 33 states with a membership of 59,505 families, 313,824 persons or 74 percent of the total reported membership offering physicians' and surgeons' services on a fee-for-service basis.
- c/ This figure represents the amount paid rather than the approved charges for units paying for service on the basis of the number of families for which each physician, hospital, druggist or dentist has accepted responsibility for professional care. U. S. and regional totals also represent only the experience of the capitation units shown under the various state headings to have reported for this month.
- d/ For units for which charges for hospital services are shown under various state headings. There are 283 such units in 337 counties which include hospital care among the services offered on a fee-for-service basis. These units reported a membership of 45,394 families, 239,916 persons.

The figures shown in the column headed, Percent of physicians' and hospital charges are derived from reports of units which include hospital care among the services offered and represent the percentage of total charges for physicians', surgeons' and hospital services which has been made for hospital services in these units. The total charges for physicians' and surgeons' services in these units in July were \$92,731.18. This with the \$14,826.74 hospital charges makes a total of \$107,557.92 of which the hospital charges are 13.8 percent.

- e/ For units shown under the various state headings to have reported dental service on a fee-for-service basis for this month. These units total 56 in 56 counties and 9 states with a membership of 6,850 families, 35,401 persons.
- f/ Figures showing membership totals have been taken from reports for months other than July.
- g/ One dental care unit in Georgia has not yet reported membership. The membership total is therefore to this extent incomplete.

- a/ Type of service offered: 1 - physicians'; 2 - surgeons'; 3 - hospital; 4 - drug; 5 - dental.
- b/ For units shown under the various state headings, as reporting physicians' and surgeons' charges. These units total 454 including 558 counties in 33 states, with a membership of 59,537 families, 318,392 persons or 73.3 percent of the total reported membership offering physicians' and surgeons' services on a fee-for-service basis.
- c/ This figure represents the amount paid rather than the approved charges for units paying for service on the basis of the number of families for which each physician, hospital, druggist or dentist has accepted responsibility for professional care. U. S. and regional totals also represent only the experience of the capitation units shown under the various state headings to have reported for this month.
- d/ For units for which charges for hospital services are shown under various state headings. There are 274 such units in 332 counties which include hospital care among the services offered on a fee-for-service basis. These units reported a membership of 43,434 families, 230,965 persons. Their approved charges for physicians' services were \$91,984.44. This with the \$14,998.91 hospital charges makes a total of \$106,983.35 of which the hospital charges are 14 percent.
- e/ For dental units operating on the fee-for-service basis which are shown under the various state headings to have reported dental services for this month. There were 60 such units in 60 counties in 8 states with a membership of 7,543 families, 38,282 persons or 70.2 percent of the total membership in dental units operating on a fee-for-service basis.
- f/ Membership totals for these units have been taken from reports for months other than August.

- a/ Type of service offered: 1 - physicians'; 2 - surgeons'; 3 - hospital; 4 - drug; 5 - dental.
- b/ For units under various state headings, reporting physicians' and surgeons' charges. These units total 469 including 582 counties in 33 states, with a membership of 62,370 families, 331,651 persons or 82.5 percent of the total reported membership offering physicians' and surgeons' services on a fee-for-service basis.
- c/ This figure represents the amount paid rather than the approved charges for units paying for service on the basis of the number of families for which each physician, hospital, druggist or dentist has accepted responsibility for professional care. U. S. and regional totals represent only the experience of the capitation units shown under the various state headings to have reported for this month.
- d/ For units for which charges for hospital services are shown under the various state headings. There are 268 such units in 329 counties which include hospital care among the services offered on a fee-for-service basis. These units reported a membership of 43,706 families, 234,743 persons. Their approved charges for physicians' were \$83,005.30. This with the \$15,454.99 hospital charges makes a total of \$98,460.29 of which the hospital charges are 15.7 percent.
- e/ For dental units operating on the fee-for-service basis which are shown under the various state headings to have reported dental services for this month. There were 65 such units in 65 counties in 9 states with a membership of 8,484 families, 44,302 persons or 89.3 percent of the total membership in dental units operating on a fee-for-service basis.
- f/ Membership totals for these units have been taken from reports for months other than September.
